EXPERIENCE

Cybersecurity Intern

Cyber Sanskar

📅 2026

- Performed VAPT using Burp Suite and Nmap; identified OWASP vulnerabilities
- Conducted reconnaissance and attack surface analysis
- Mitigated XSS, SQL Injection, and CSRF vulnerabilities
- Configured AWS Cognito and IAM for authentication

PROJECTS

CyberForce

AWS Cloud Platform

- Built serverless platform using Amplify, Cognito, SES, DynamoDB with secure authentication

SecuNexus

ML Threat Detection

- Developed phishing detection system using LSTM and TensorFlow

Pentesting Tool

Python

- Automated reconnaissance and vulnerability detection

Aura AI

NLP Automation

- Built AI-based automation system for workflow optimization

Movie Rating Website

Full Stack

- Developed secure web application with authentication and REST APIs

PROFILE

Cloud & DevOps Engineer with expertise in cybersecurity, AWS cloud deployment, and full-stack development. Skilled in VAPT, OWASP Top 10, CI/CD pipelines, Docker, Kubernetes, and secure system design.

SKILLS

Python JavaScript AWS Docker
Kubernetes Terraform Ansible
CI/CD VAPT OWASP Burp Suite
Nmap React Node.js Linux

STRENGTHS

Problem Solving Security Mindset
Automation Quick Learner
Adaptability

CERTIFICATIONS

AWS Certified Cloud Practitioner
Google Cybersecurity Certificate
Ethical Hacking
TryHackMe Labs

EDUCATION

B.Tech Computer Science Engineering

MIT Aurangabad

📅 2021 – 2025

CGPA: 8.21 / 10
