PROFILE SUMMARY

Aspiring DevOps Engineer with 1+ year of hands-on experience in Kubernetes, Docker, AWS, and CI/CD pipeline automation. Skilled in cloud infrastructure, secure application deployment, and DevOps workflows for scalable systems.

SKILLS

Technical skills: DevOps | Full-Stack Web Development | Cloud Infrastructure Deployment | Infrastructure as Code (IaC) | CI/CD Pipeline Automation | Kubernetes Orchestration | Containerization | GitOps | Linux Administration | Python | Shell Scripting | REST API Development & Integration | Vulnerability Assessment

Tools & Technologies: AWS (EC2, IAM, VPC, Amplify, Cognito, DynamoDB) | Docker | Kubernetes | Jenkins | Argo CD | Terraform | Linux | Git | GitHub | Python | Bash | Node.js | Express.js | Next.js | React.js | JavaScript | TypeScript | PHP | HTML5 | CSS3 | Kotlin | MySQL | DynamoDB

EXPERIENCE

Cyber Sanskar

Nashik, Maharashtra

Software Development & DevOps Intern

Jan-May 2026

- Implemented an integrated CI/CD automation pipeline for a full-stack training application, increasing deployment cycles by **50%** and reducing operational effort through automated build and deployment workflows.
- Orchestrated k8s Pods in scalable AWS EKS Clusters to improve uptime by 99%
- Managed security and robustness of the application with Docker Private registries and secrets manager.

PROJECTS

StockDevOps – Cloud Native DevOps Platform |

2026–Present

Built a cloud-native DevOps platform using AWS, Terraform, Docker, Kubernetes, Jenkins, and Argo CD. Automated infrastructure provisioning, CI/CD pipelines, and GitOps-based deployments on Linux servers.

SecuNexus Threat Detection Mobile Application |

2024–2025

Developed an Android security app using Kotlin and Jetpack Compose to detect suspicious URLs in real time with phishing alerts and URL tracking using Room Database.

Twitter Sentiment Analysis |

2023–2024

Built a sentiment analysis system using Naive Bayes and SVM models, achieving 90% accuracy in tweet classification for campaign analysis.

EDUCATION

Maharashtra Institute of Technology

Aurangabad, Maharashtra

Bachelor of Technology in Computer Science & Engineering

2022-2026

CERTIFICATIONS

- AWS Cloud Practitioner** – Completion Certificate
- Google Cloud Arcade** – Hands-on Labs & Milestone Rewards
